

HB 3099 -- THE PRESCRIPTIVE AUTHORITY OF ADVANCED PRACTICE  
REGISTERED NURSES

SPONSOR: Murray

Currently, an advanced practice registered nurse who holds a certificate of controlled substance prescriptive authority from the Board of Nursing, within the Department of Professional Registration, and who is delegated the authority to prescribe controlled substances under a collaborative practice arrangement can prescribe any controlled substances listed in Schedules III, IV, and V and may have restricted authority in Schedule II. This bill removes the restriction authority for Schedule II substances and gives full prescribing authority for Schedule II substances to the advanced practice registered nurse.
