

HB 3105 -- FIREARMS OWNERS RIGHTS

SPONSOR: Schulte

This bill repeals language that was found to be unconstitutional from the "Second Amendment Preservation Act".

This bill states that public officials, employees, and agents of the state of Missouri and any of its political subdivisions have no authority to knowingly violate a law-abiding citizen's legal rights regarding firearms, firearm accessories, or ammunition. Nothing in the provisions of this bill shall prohibit Missouri officials from accepting aid from federal officials or rendering aid to federal officials, nor shall the provisions of this bill prohibit law enforcement from working on federal task forces.

If any law enforcement officer employed by a political subdivision or law enforcement agency commits certain acts, as specified in the bill, while acting under the color of any state or federal law regarding a law-abiding citizen's constitutional rights to bear arms, the political subdivision or law enforcement agency shall investigate such employee for potential discipline, as specified in the bill.

This bill also defines the term "law-abiding citizen" to mean a person who is:

- (1) Eighteen years of age or older;
- (2) Not under criminal investigation for, arrested for, or charged with a criminal offense for which valid probable cause exists;
- (3) Not a danger to themselves or others;
- (4) Not otherwise precluded under state law from possessing a firearm; and
- (5) Legally present in the United States and in the state of Missouri.

This bill further states that providing material aid to federal authorities in the investigation, arrest, detention, or prosecution of any person if there is reasonable suspicion to believe that the person engaged in criminal conduct is not considered a violation of the provisions of this bill.

This bill is similar to SB 955 (2026).
