

HB 3217 -- ASSISTANT PHYSICIANS

SPONSOR: Overcast

Currently, a collaborating physician cannot enter into a collaborative practice arrangement with more than six full-time equivalent assistant physicians, full-time equivalent physician assistants, or full-time equivalent advance practice registered nurses, or any combination of the three professions.

This bill raises the number of full-time equivalent assistant physicians, full-time equivalent physician assistants, or full-time equivalent advance practice registered nurses from six to ten.
