

HB 3228 -- IMMUNITY FOR INTERVENING IN CERTAIN INCIDENTS OF  
VIOLENCE

SPONSOR: Steinhoff

This bill provides immunity from civil liability for a teacher, and the school district or charter schools that the teacher works for, who intervenes in a incident involving violence for if the teacher is acting to safeguard himself or herself or a student.

The bill requires the teacher to follow procedures and to intervene in good faith in a manner that the teacher reasonably believes is afforded the defense of justification under Chapter 563, RSMo.

The bill prevents school districts from the implementation of a policy that prevents teachers from protecting themselves or students.

This bill is similar to HB 2913 (2026).
