

HB 3235 -- JOINT COMMITTEE ON EDUCATION

SPONSOR: Lewis

This bill repeals or modifies duties of the Joint Committee on Education that have expired or changed.

Currently, Section 21.487, RSMo, requires that the committee develop a comprehensive funding formula for public institutions of higher education. The deadline for that formula was 2015. This bill modifies the provision to require a report from the Department of Higher Education and Workforce Development and make recommendations to the General Assembly.

Repealed duties include a provision requiring: the creation of a committee to investigate facility access and affordability for charter schools , which provision expired in 2016 in Section 160.405; a report on the review of policies and procedures in remedial education, which provision expired in 2017 in Section 173.750; the repeal of the Career Readiness Course Task Force, which dissolved in 2019 in Section 167.910; the review of the study on information technology certificates, which provision expired in 2015 in Section 173.680; and technical and administrative support for the Legislative Task Force on Dyslexia, which provision expired in 2018 in Section 633.420.
