

HB 3357 -- SAFETY OF MEDICAL DEVICES

SPONSOR: Dean

This bill prohibits, beginning January 1, 2030, the sale or distribution of intravenous solution containers made with intentionally added "DEHP", as that term is defined in the bill.

The bill additionally prohibits, beginning January 1, 2035, the manufacture, sale, or distribution of intravenous tubing made with intentionally added DEHP.

This bill exempts human blood collection and storage bags and apheresis and cell therapy blood kits and bags, including integral tubing.

The date by which compliance is required for a person or entity under the provisions of this bill will be extended to January 1, 2032, if specific conditions are met, as specified in the bill.
