

HB 3436 -- THE REGULATION OF PUBLIC UTILITIES

SPONSOR: Boyko

The bill specifies that all ratemaking determinations by the Public Service Commission must be just and reasonable, as defined in the bill, and be based on a finding that any utility rate change will not be unduly burdensome to the current affordability of utility services to customers.

The bill also requires that any public hearing held by the Commission for the receipt of evidentiary testimony from members of the public for purposes of a general rate proceeding must be subject to certain requirements specified in the bill.

This bill is similar to SB 1712 (2026).
