THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The Missouri Restaurant Association supports all “Act Against Abusive Website Litigation” Bills introduced in the House this session. Including HB 1674, 1694, 1755, 1780, 2056, 2312, 1842, 2150 Far too many restaurants and small business operators have paid fees to the same attorney while simultaneously making alterations to their website to be compliant with ADA guidelines. Many restaurants do not have the wherewithal to hire outside website designers and manage their sites independently. They strive to provide relevant information about their business and try to comply with all required laws. Having a 30 day right to cure allows an operator to do the right thing for the public without being strongarmed into paying litigious fees. I would also recommending an additional abusive clause to include “the plaintiff must demonstrate an actual use for the defendants’ products or services” demonstrating that the plaintiff intended to use the good or services to further prevent frivolous lawsuits. Restaurants ore the cornerstone in every community from our big cities to our small towns. We applaud all Representatives for taking the time to pass this important piece of legislation.

Associated Industries of Missouri (AIM) supports legislation that will stop abusive litigation that is currently being threatened by opportunistic plaintiffs' attorneys. This bill provides an opportunity to a business to remedy any shortcomings in ADA accessibility and provides enforcement by the Attorney General.

I oppose HB 1674.

This bill advances policy changes without demonstrating a clear public necessity, measurable benefit, or proportional response to an identified problem. Missouri law should be amended only when a bill solves a concrete issue supported by evidence, fiscal clarity, and constitutional grounding. HB 1674 does not meet that standard. Instead, it appears to layer new statutory language onto an already complex legal framework without sufficient justification or guardrails, increasing the risk of unintended consequences, inconsistent enforcement, and future litigation.

Further, the bill reflects a broader pattern of legislating by volume rather than precision. When proposals are rushed to hearing without transparent explanation, clearly articulated impacts, or adequate public vetting, citizen trust and institutional legitimacy are undermined. Missouri's General Assembly should prioritize focused, narrowly tailored legislation that addresses real needs—not expand statutory reach simply because it can.

For these reasons, HB 1674 should not advance in its current form.
