The Alliance for Automotive Innovation (Auto Innovators) appreciates the opportunity to express our support for HB 2208 and HB 2069. This bill would establish a legal framework that supports the full deployment of AVs and will better equip Missouri's residents, businesses, transportation system, and law enforcement to take advantage of the benefits presented by this technology.

I'm against this bill and all autonomous vehicles because as a motorcycle rider they don't always see Motorcycles and or pedestrians. I do not want them on our roads in Missouri.
Thank you

Honorable Representatives of the Committee,

The Missouri AFL-CIO, the voice for working Missourians, respectfully opposes House Bill 2208. This bill directly threatens jobs in transportation, delivery, and commercial driving. By designating the automated driving system as the “driver,” the bill eliminates the need for licensed human operators and undermines worker protections tied to driver status, including training standards, accountability, and employment classification. The bill also preempts local governments from regulating, taxing, or restricting autonomous vehicles, limiting the ability of cities and counties to protect local jobs, impose labor standards, or address workforce displacement. Additionally, allowing on-demand autonomous vehicle networks under the same framework as taxis and for-hire services creates unfair competition for unionized and traditional drivers without requiring equivalent labor, wage, or benefit standards. Overall, the legislation prioritizes rapid industry expansion and corporate flexibility over job security, worker safety, and the economic stability of workers whose livelihoods depend on driving-related occupations.

The Missouri AFL-CIO respectfully urges a “No” vote on House Bill 2208.

Jacob Hummel
President
Missouri AFL-CIO
