The Missouri Restaurant Association supports all "Act Against Abusive Website Litigation" Bills introduced in the House this session. Including HB 1674, 1694, 1755, 1780, 2056, 2312, 1842, 2150 Far too many restaurants and small business operators have paid fees to the same attorney while simultaneously making alterations to their website to be compliant with ADA guidelines. Many restaurants do not have the wherewithal to hire outside website designers and manage their sites independently. They strive to provide relevant information about their business and try to comply with all required laws. Having a 30 day right to cure allows an operator to do the right thing for the public without being strongarmed into paying litigious fees. I would also recommending an additional abusive clause to include "the plaintiff must demonstrate an actual use for the defendants' products or services" demonstrating that the plaintiff intended to use the good or services to further prevent frivolous lawsuits. Restaurants ore the cornerstone in every community from our big cities to our small towns. We applaud all Representatives for taking the time to pass this important piece of legislation.

Associated Industries of Missouri (AIM) supports legislation that will stop abusive litigation that is currently being threatened by opportunistic plaintiffs' attorneys. This bill provides an opportunity to a business to remedy any shortcomings in ADA accessibility and provides enforcement by the Attorney General.

I oppose HB 2312 based on legislative process and policy discipline concerns. HB 2312 is one of multiple materially similar bills introduced this session addressing the same subject matter through nearly identical statutory frameworks. Introducing duplicative legislation on the same policy question fragments public input, burdens committees, and undermines meaningful deliberation. When lawmakers advance parallel bills instead of consolidating proposals, it becomes difficult for the public to track changes, assess intent, and provide informed testimony. This approach also signals policy flooding rather than careful lawmaking. If the General Assembly believes changes to existing civil litigation standards are warranted, those changes should be debated transparently in a single, clearly defined bill—not dispersed across multiple versions that differ only marginally in language or sponsorship. For these reasons, and to preserve legislative clarity, transparency, and accountability, I urge the committee to oppose HB 2312.
